

How do you pay for our services?

We use the PayPal payment system, providing a simple and secure transaction process.

In order to pay the membership and joining fees you can either use an existing PayPal account or you can pay directly from your Bank Account using a Debit Card.

You can also use a Credit Card but we suggest this option is only taken if you are able to repay your Credit Card bills each month without incurring interest.

Using a Credit or Debit card also creates a PayPal account for you.

Once you have paid, you will receive a Username and Password which you will need to make a note of as this will allow you ongoing access to the member's only pages within the myfinancialplan website.

Once completed hit the 'Return to Merchant' button at the bottom of the page that confirms you Username and you will return to the myfinancialplan site, taking you straight into the membership zone.

If you wish to cancel your subscription, you will need to log-in to your PayPal account either direct through PayPal or through the My Financial Plan site.

If you do wish to cancel the subscription go into your account within PayPal, click on the "details" hyperlink on the subscription line and this will bring up the subscription page at the bottom of which is a "Cancel subscription" button.

If you cancel your subscription please note you will lose access to the membership zone and you will lose any un-used Adviser time.
